‘House Rules’ for Visiting Dogs

We are very happy for our guests to bring their canine friends with them on their break, but ask that you please adhere to our ‘house rules’ for visiting dogs, at all times.

- Dogs must be kept on a lead at all times whilst on the farm and in the grounds of the cottages, including the car park.
- Please ensure that your dogs worming and vaccinations are up to date.
- Dogs should not be left alone in the Property. We have an outdoor kennel and run that you are welcome to use, if required.
- Dogs are not allowed on the furniture or beds, and must sleep in their own pet bed, provided by their owners.
- We respectfully remind you to adhere to the ‘Countryside Code’ at all times. A copy can be found in your cottage information folder, along with the Natural England leaflet ‘You and your Dog in the Countryside’.
- Owners must keep to the designated footpaths when walking their dogs on the local farmland, and dogs of course should be kept on a lead where applicable.
- Owners must take responsibility for the control of their pet at all times. Dogs should not cause a nuisance to other pets, guests or the property owners.
- All dog foul must be immediately cleaned up and disposed of in one of the outside bins, in a sealed non-transparent bag.
- Dogs are not allowed in the vicinity of the stable yard, if horses other than just your own are present.
- One well behaved pet dog is allowed in the property, unless otherwise agreed.
- Please clean your dog after a muddy walk, before allowing them into the property. Do not use the cottage bathrooms, or showers to clean your dog, we have an outside hose available!

Many thanks for your kind co-operation.
